O1

Single large hexagon

A complete single hex, all six sides fully visible. Sized at ~75% of canvas — scale, position, and bleed off edges yourself in code.

O2

Partial — corner crop

~1/3 visible, cropped at top-right. Simulates a hex sitting at the edge of a section with the rest off-canvas.

O3

Loose cluster

Three hexes, one dominant. Overlapping, loosely placed — drifted rather than gridded. Works well mid-section or behind a stat block.

O4

Aligned pair

Equal-sized hexes, near-edge-aligned. References honeycomb logic without becoming a full pattern. Clean and geometric.

O5

Repeating field

Section of a full hex grid — suggests the pattern continues beyond the canvas. Most texture-like asset in the set. Use once per page, max.
